# Outsourcing Services to UK

The amount spent on outsourcing services to the UK has doubled to about Â£88 billion since the year 2010. The research also shows that the public sector is contracting out services at twice the rate of the private sector. The value of public sector outsourcing deals reached Â£51 billion over the past two years, compared with Â£30 billion for the commercial sector.

Outsourcing has helped organizations achieve their business goals faster, focus on core competencies, add value to their services and reduce the business risks. We at Outsource2india are committed to the global customers we serve across diverse industry verticals. Our processes have a world-class combination of domain expertise, technology and timely global delivery, which ensure best results for our clients.

## Benefits of Outsourcing Services to UK

Outsourcing your requirements to Outsource2india allows your business to reduce operating costs and risks and also retain control over the project at all times. We do not compromise on the quality of the services we provide and ensure timely delivery to our clients 24/7. Some of the benefits of outsourcing services to UK are:

#### - Significant Cost Savings

Most companies prefer to outsource because of the significant cost savings associated with it. At Outsource2india, we provide high-quality services to companies based in UK at a fraction of the price when compared to our competitors.

#### - Data Security

Our services ensure that all your data is secure and complete confidentiality is maintained. We do this by leveraging world-class multi-level redundancies and back-up systems. Our services are governed by strict NDAs and adherence to ISO standards.

#### - High Quality

Our quality assurance teams ensure that the final deliverables are always of the highest quality. Our services are strictly governed by ISO: 9001 standards.

#### - Easy Scalability

By outsourcing to us, scaling up and scaling down the resources is very simple. Our large number of workforce and multiple delivery centers across the globe helps us in ramping up your project in as short a time as possible.

#### - Experienced Resources

Our workforce consists of highly qualified individuals from top universities around the world. We ensure that the right people are employed for the right projects and ensure that the projects are completed on time.

#### - Focus of Core Activities

Outsourcing the ever-expanding back-office operations will allow your employees to re-focus on core and critical business competencies without sacrificing on the service quality.

#### - Easy Risk Management

Outsourcing will allow you to share any associated risks with your outsourcing partner, thereby reducing your burden. With specific industry knowledge and security and compliance issues in place, outsourcing service providers assume and manage much of this risk for you.

#### - Improved Customer Service

Outsourcing service providers have skilled expertise which helps them produce quality results faster at short turnaround time to the customer. With on-time deliveries and high-
